

ABSTRACT OF THE DISCLOSURE

A lamp shade includes a shade having a first end and a second end, an upper ring detachably mounted on the first end of the shade, and a lower ring detachably mounted on the second end of the shade. Thus, the lamp shade
5 can be folded when not in use, so as to reduce the volume of the lamp shade, thereby facilitating package, storage and transportation of the lamp shade, and thereby decreasing the costs of package and transportation.
